

City & Guilds - 6160-09 Level 2 Working in Medium Risk Confined Space – Entrant & Entry Controller

The qualification is for those undertaking works applicable to medium risk confined spaces in particular for the entry controller who will controls those making entry and the associated arrangements for medium risk confined space works. This units cover the duties that the entry controller will apply including pre-entry procedures and checks, preparing the entrants to work safely within the confined space, use of tools and equipment, entry and exiting the confined space, control and maintaining communications during the works and organising emergency arrangements if required.

Course Aims

The aim of this unit is to follow the national occupational standard required for works associated within a medium risk confined space environment. The qualification is applicable for both water and non-water and may include tasks working in sewer treatment processes, tunnelling, drainage and sewer systems, or where a confined space is subject to any of the specified risks.

Course Content

- Carry out all required safety checks
- Control the entry/exit for workers and maintain communications
- Prepare to work in a safe manner in a confined space environment
- Enter and exit the confined space following all necessary procedures
- Using associated tools and equipment in a safe manner
- Following all required working procedures to work safely
- Understand how to deal with emergencies - including the use of an escape set
- Understanding confined space workings and all associated principles and regulations
