

OPITO Combined FOET

This course is often referred to as 'Survival Refresher' or 'BOSIET Refresher'.

This OPITO-approved Combined FOET with Emergency Breathing System (EBS) & Compress Air Emergency Breathing System (CA-EBS) will give delegates the opportunity to practice and demonstrate emergency response skills which are not possible to practice during offshore drills, exercises and emergency training. This includes helicopter emergency escape, emergency first aid and basic firefighting and self-rescue. This course is a mix of theoretical and practical sessions, during which delegates will be required to demonstrate their level of knowledge and understanding of the training programme content.

Instructions

- A valid and in-date OGUK Medical (or equivalent)
- A valid and in-date Fit to Train Assessment (declaring the participant fit or unfit)

AND
