

Site Safety Plus - Health & Safety Awareness

This one-day Health and safety awareness (HSA) course is designed to aid the understanding of potential hazards the construction worker may face on site. It provides a practical summary of health, safety, welfare and environmental issues. It identifies the delegate's responsibilities for looking after themselves and others, outlines the employer's duties and explains what should be done if the worker thinks that anyone's health and safety is being put at risk.

The course is an ideal foundation for those wishing to obtain an industry site card. It is also an alternative route to the QCF Level 1 Award in Health and Safety in a Construction Environment for the CSCS Laborer Card. The course provides health and safety awareness and is endorsed by Build UK as standard training for all operatives on site.

At the end of the course delegates will have an understanding of:

- the need to prevent accidents
- health and safety law
- how your role fits into the control and management of the site
- risk assessments and method statements
- performing safely and asking for advice
- how to report unsafe acts to prevent an accident

Certification for this course is valid for 5 years. To remain certified in this area, you will need to retake the course before the expiry date.
